

An ancient fruit, the olive is grown throughout the world. At Gambino's, we pride ourselves on hand selecting only the highest of quality olives from around the most fertile regions. Those olives that do not meet our standards are discarded and sold to other manufacturers.

In certain areas of Spain and Sicily, the soil, sun, temperature and rainfall combine to create a magnificent olive. In these regions, family growers produce olives in the old world tradition - green olives just right for the Gambino family recipes.

We use 100% extra virgin olive oil from Sicily and prefer domestic black olives and include fresh carrots, celery, and cauliflower grown in California. We use whole queen olives for our olive salads.

Our Italian Olive Salad is made from the best ingredients and is a perfect addition to any meal. It is a delicious and healthy snack that can be enjoyed on its own or as a side dish. It is a great way to add some flavor and texture to your meals.

## CONTACT US

Gambinos has multiple in house sales representatives combined with a national network of food brokers to help you with any of your questions and provide you with samples.
